

CRUZE

CHEVROLET

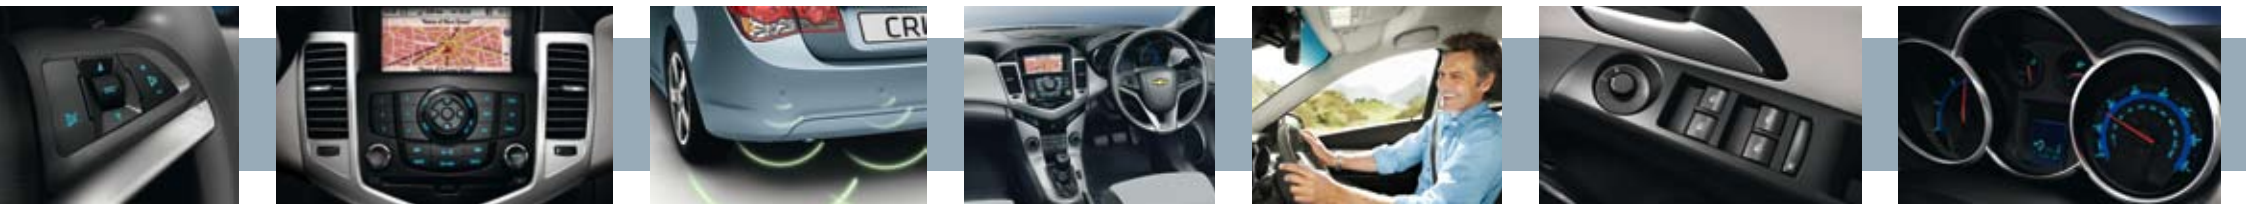

From drawing board to showroom, the Chevrolet Cruze was created to set new benchmarks.

This compact saloon redefines the affordable car with dynamic exterior and interior styling, plus a generous list of features as standard. Its beauty is also more than skin deep, as it combines exceptional build quality and handling with class-leading comfort and safety for all occupants. All driven by a choice of engines designed for greater power and fuel efficiency. Introducing the Chevrolet Cruze. Get ready to enjoy more.

Setting a new standard in style.

Chevrolet design teams worldwide joined together to create a car that adds a new dimension to the traditional saloon. Crisp body lines and a muscular profile deliver all the style of a coupé, while a wider stance improves handling and interior space alike. Aerodynamics have also been taken to a new level, with smooth curves and a steep roof line that not only improve fuel efficiency, but provide a more quiet ride on every type of road surface. Together with signature Chevrolet design features such as swept headlamps and a powerful front grille, Cruze delivers presence and performance unlike any other saloon.

Taking interior space to another level.

Step inside the Cruze and you'll discover an elegant cabin equipped with a range of features that elevate refinement and driver control. The dual-cockpit design reflects the performance cars that inspired it, with grained surfaces, soft touch materials and low gloss trim panels adding to the quality feel. A dynamic radio/CD stereo with MP3 line-in jack is standard, LS and LT models also feature audio controls built into the steering wheel to make changing tracks easier. Power windows*, adjustable tilt steering and a wealth of clever storage compartments complete the interior, with personal options such as satellite navigation and an electric sliding sunroof available on demand.

* Front windows only on S trim level

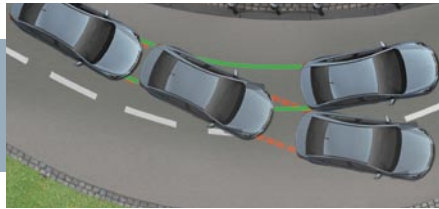

Defining a new dimension of comfort.

Although compact on the outside, the Cruze features a spacious cabin that can seat five adults in style. Leg, head and shoulder room are maximised for rear as well as front passengers, ensuring a relaxing drive no matter how long the journey. A generous 450 litres of boot space make carrying shopping and luggage a breeze, while the 60/40 split rear seats create additional space for longer items. Standard 4-way adjustable front seats also make it easy to find the perfect driving position. Now add air conditioning - with electronic climate control on LT models - and the Cruze offers comfort just as contemporary as its design.

Reaching the height of driving pleasure.

From city hops to long distance drives, the Cruze delivers excellent ride quality and performance. Electronic Stability Control ensures superb balance in all types of road and weather conditions, while cruise control on LT models makes long distance driving a pleasure. Exceptional build quality and a tuned suspension further add to the Cruze's refined handling while also reducing external noise. When it comes to power, select from a range of engines, each designed for greater acceleration and fuel efficiency. That includes two 16-valve petrol engines, a 1.6 litre with 113PS or a 1.8 litre capable of 141PS, and two 2.0 litre turbo diesels with 125 or 150PS, both capable of over 50mpg. Matched to a dynamic 5-speed manual gearbox, or a 6-speed automatic available on both petrol engines and the 150PS turbo diesel.

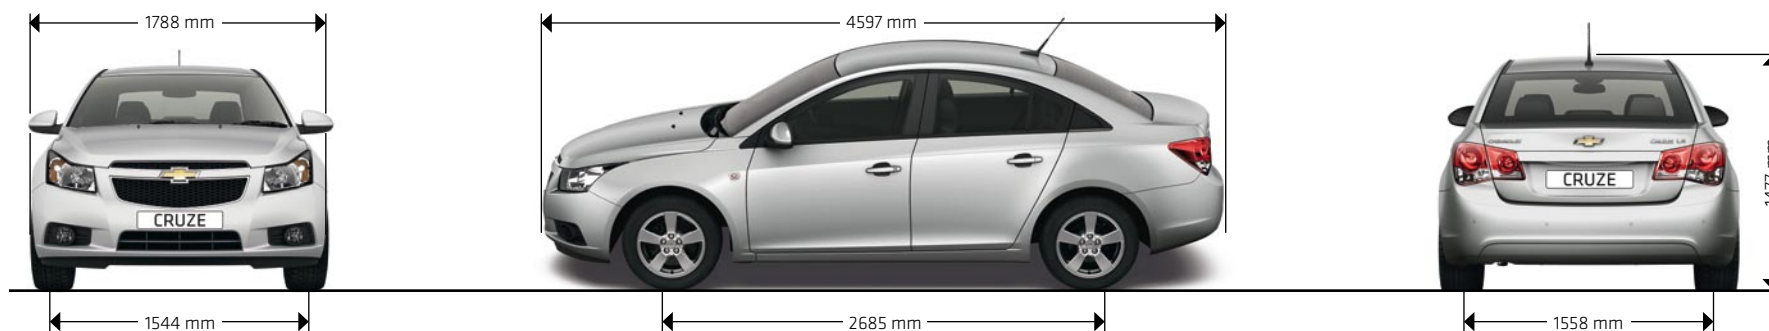

Creating new levels of safety.

The Cruze may change the rules of style and comfort, but it takes no chances with your safety. Its high-strength steel structure is among the stiffest in its class, providing a solid foundation for all-round protection. A total of six airbags – driver and passenger front airbags, plus head and side airbags – elevate safety for all occupants. Children are given extra security via ISOFIX child seat mounts in both outer rear seats. Anti-lock brakes are of course standard but, unusually for a car in this price range, so is Electronic Stability Control (ESC). If the vehicle starts to slide ESC automatically applies corrective braking to the appropriate wheel or wheels to help you quickly regain control. While rear parking sensors, on both LS and LT models, help to prevent even the smallest collision. Wherever the road takes you, the Cruze's focus on safety (which is confirmed by the five star Euro NCAP rating) will help you drive with confidence.

Choose the road ahead. Chevrolet.

For almost a century, the name Chevrolet has stood for great cars built to meet the demands of real life. That means creating cars which not only offer expressive style, but more practical features and proven reliability to help you make the most of every day. From individual drivers to large families, city streets to the open road, every model in the Chevrolet range delivers on our promise of quality and satisfaction, always at an affordable price. And we're already shaping the future by enhancing our cars to offer new fuel alternatives, added versatility and an even greater driving experience. To date, more than 1 million drivers across Europe have made the Chevrolet legend their own. Together with our network of 2,500 retailers, we look forward to welcoming your family to ours.

Chevrolet owner privileges.

Every Chevrolet comes with a comprehensive warranty and commitment from us to you:

- ◊ 3 year's or 60,000 miles comprehensive warranty FREE
- ◊ 6 year anti-perforation corrosion warranty with no mileage restrictions FREE

Extended vehicle warranty.

EXTENDED WARRANTY: For complete peace of mind Chevrolet offers an extended warranty that can be purchased on an annual basis following the expiry of the original new car warranty. It covers most mechanical and electrical components. Terms and conditions apply, for further details please contact your local Chevrolet retailer.

IMPORTANT NOTICE: Chevrolet UK Ltd is constantly seeking ways to improve the specification, design and production of its vehicles and alterations take place continually. Whilst every effort is made to produce up to date literature, this UK market brochure should not be regarded as an infallible guide to current specifications, nor does it constitute an offer for sale of any particular vehicle. Owing to the print limitations of re-producing paint colours on paper, the colours shown here can only be taken as a general guide to the range of colours available. Information on recycling design, recycling End of Life Vehicles (ELV) and the return locations of ELVs can be found on the website www.chevrolet.co.uk. © 2010 Chevrolet UK. All rights reserved.
